

SUPPLEMENTAL COVID ADDENDUM TO ADVENTURES IN GOOD COMPANY, INC.: ACKNOWLEDGMENT AND ASSUMPTION OF RISKS & RELEASE AND INDEMNITY AGREEMENT

Because of the unforeseen and unprecedented nature of COVID-19 and associated international and U.S. federal, state and county restrictions, Adventures in Good Company, Inc. (hereafter "AGC") needed to create new and altered programming and alter its registration, risk management and emergency response policies in order to continue operating.

Nature and Purpose of this Addendum:

Participant already has or will sign the AGC: Acknowledgment and Assumption of Risks & Release and Indemnity Agreement (hereafter sometimes "Document"). **That Document remains in force, and participant, by signing, must also acknowledge and agree to this Supplemental COVID Addendum (hereafter "Addendum"). The purpose of this Addendum is to provide participant with additional information on the risks and participant's responsibilities and assumption of risks associated with attending an AGC trip during the COVID-19 Pandemic. Importantly, this Addendum re-affirms participant's enrollment and participation in the trip and activities under the terms of the AGC: Acknowledgment and Assumption of Risks & Release and Indemnity Agreement, fully incorporated here, by this reference. Participant is voluntarily participating in the activities despite the risks, including the risks associated with COVID-19.**

Some but not all of the COVID-19 related inherent risks and consequences include :

- **US or International Travel.** The presence of SARS-CoV-2/COVID-19 in the US or another country presents uncertainties and risks associated with travel, including but not limited to sudden closing of borders and/or in country (or any US state) quarantines (whether participant is trying to travel to or through, or return from, a travel location), varying or inconsistent global or in country (US or otherwise) travel advisories, cancellation or termination of air, ground or other travel into, through or out of a location, etc. Medical facilities may be primitive, inadequate, unavailable or inaccessible (including, in the case of sickness from COVID-19, lack of critical care medical equipment such as but not limited to ventilators).
- **Personal Health and Participation.** There are risks associated with the participant's contact with other persons, spaces, equipment or otherwise, including the risk of a participant, staff, family member or other persons' carrying, being infected by or contracting SARS-CoV-2 (virus) and/or COVID-19 (resulting disease) or other disease, virus or bacteria before, during or after the trip and/or transmitting it to others. Further, someone could have COVID-19 but not show symptoms.
- **Exposure or Transmission.** There are risks of participant being exposed to, contracting and/or transmitting to others life threatening human/animal/insect/other borne communicable and/or contagious diseases, such as but not limited to COVID-19 (via the SARS-CoV-2 virus).
- **Trip Interruption or Cancellation.** If a participant becomes ill during a trip, AGC may need to isolate participant/s and require COVID-19 or other testing, and this may mean the trip could be cut short or canceled, with participant/s incurring additional travel and medical expenses.

The inherent risks – and any other risks, hazards and dangers (collectively "risks") can cause injury, death or other loss to the participant, fellow participants, staff or others, and because of the risk of COVID-19 transmission, the risks extend to the participant and other members of the participant's family or home community, as participants arrive to - and return home from - a trip, as well as to individuals encountered on an AGC trip, including importantly, vulnerable and at risk populations, and participant shares in the responsibility for their and others' well-being.

The above risks and consequences exist despite AGC adopting new COVID-19 related policies (whether directed or suggested by international, federal, state or county officials or otherwise) for its participants and staff.

Acknowledgement and Assumption of Risks: I am voluntarily participating with knowledge of the risks, including risks associated with COVID-19. Therefore, I assume and accept full responsibility for the inherent and other risks of the activities (known or unknown, identified or not), and for any injury, damage, death or other loss suffered by me resulting from the risks, including the risk of my own negligence or other misconduct, and assume and accept any increased risks to me or others related to my participation in AGC trip and activities in relation to COVID-19.

I agree to review all AGC information, complete all required forms and abide by the terms of those forms and all rules and other policies, including AGC policies developed in light of COVID-19. This includes but is not limited to my agreement to be fully vaccinated if my trip's start date is prior to May 1, 2023 (or submit an approved medical exemption from vaccination), wear a mask as required, follow all applicable COVID-19 guidelines, and disclose to AGC whether or not I exhibit any COVID-19 or flu-like symptoms immediately before or during my trip. I further agree and consent to all screening, monitoring/testing and contact tracing procedures requested or required before, during and/or after my trip, whether by government authorities or by AGC, its suppliers or vendors, or other businesses I come in contact with during the trip.

Participant: I acknowledge and agree that this Addendum, all existing or altered AGC information, rules and other policies and all other aspects of my enrollment or participation in the trip and/or activities are included within the scope of – and expressly subject to the terms of - the AGC: Acknowledgment and Assumption of Risks & Release and Indemnity Agreement, signed by me.

I understand that my signature is valid and legally binding whether I choose to electronically sign, or manually sign a printable version of this Addendum.
