

PACKING LIST - CHILE: FROM ATACAMA TO PATAGONIA

FOOTWEAR

- 1 pair lightweight waterproof hiking shoes or boots
- 1 pair comfortable shoes for general use
- 2 - 3 pairs of hiking socks (wool or synthetic equivalent: Thorlo, Smartwool, Darn Tough)

CLOTHING:

- 2 - 3 pair of comfortable synthetic long (3/4) pants for hiking - zip-offs work well
- 1 - 2 pair shorts (lightweight and quick drying)
- 3 - 4 synthetic or lightweight merino wool T-shirts or short-sleeved shirts
- 1 long-sleeved, lightweight shirts for sun/bug protection (button up front is recommended)
- 1 lightweight long underwear top and bottom – silk, wool or synthetic equivalent
- 1 medium-weight top layer: wool shirt/pull-over or synthetic equivalent. A lightweight fleece fullover or a fleece vest works well for this layer
- 1 warm down/fleece jacket
- 1 rain jacket/poncho and rain pants - **waterproof/breathable** fabric like Gore-tex – not a lightweight plastic poncho
- Underwear/nightwear
- 1 warm wool or fleece hat
- 1 pair wool, Capilene, or Polartec gloves
- 1 wide-brimmed hat baseball style hat for protection from the sun/rain
- 1 – 2 changes of casual clothes to wear at end of day

EQUIPMENT/ESSENTIALS

Passport and a photocopy of your passport

- 1 daypack (see notes on packing list for recommended capacity)
- Capability to 'waterproof' your backpack. Either a rain cover or a heavy-duty plastic bag to line your pack.
- 1-liter water carrying capacity (water bottle or hydration system)
- Sunscreen and lip block with SPF of at least 15
- Sunglasses (100% UV blocking) /w retention strap
 - 1 – 2 bandanas/buff
 - Headlamp/small flashlight
 - Travel alarm/watch with alarm
 - Ear plugs (for a good night's sleep!)
 - Tupperware-like container for sandwich/lunch

TOILETRIES (small everything)

- Toothbrush, toothpaste, dental floss, hand sanitizer, shampoo, contact lens paraphernalia, sanitary supplies
- Sunscreen and lip protection with sunblock of at least SPF 15
- Personal first aid/patch kit - Band-Aids, 1 safety pin, moleskin, Compeed (or blister bandages), ibuprofen, any personal medications

Please note: Individuals who have had or have the potential for a severe allergic reaction to insect stings, specific foods or medications must bring an epi-pen. Please consult your physician and tell your guide.

OPTIONAL (not required, personal preference)

- 2 pair synthetic, lightweight liner socks (optional -- **not everyone uses sock liners**)
 - Pair of trekking poles
 - Book/ journal/pencil/pen
 - Extra batteries/charger
 - 10 ft light cord and 4-6 clothespins, detergent
 - Swim suit
 - Favorite snack(s)
 - Camera and film/memory card
 - Short gaiters
 - Binoculars (lots of wildlife viewing potential)
 - Waterproof gloves

NOTES ON PACKING

Adventures in Good Company's packing list covers everything you need to assure your safety and comfort. You may not use everything you bring; however, you need to come prepared for all possible weather conditions. At the same time, you must be able to carry your own luggage, sometimes up and down stairs.

Daypacks: Your daypack should be large enough to hold the following items: 1 liter of water, rain gear, lunch/snacks (for the day), sun screen, warm layer (fleece pullover or vest), personal first aid kit, lightweight gloves, warm hat and personal items such as camera,etc. We recommend a daypack with a capacity of between 24 - 30 Liters (1450 - 1850 cubic inches) with a hip belt, padded shoulder straps, and 'lifters'. Line your daypack with a durable plastic bag to keep your belongings dry and/or have an elasticized pack cover that fits snuggly over it. Before you leave home check to be sure that it is comfortable to wear all day and has sufficient space for all of the items listed above. **Note: Fanny-packs and hydration packs are not large enough to hold all of the items you will need for the day.**

Footwear: Well-fitting, sturdy boots or trail shoes are very important to your safety and enjoyment. If you plan to buy new boots, break them in by wearing them around town and taking some short hikes *before* your trip. For general hiking, lightweight or midweight cordura or leather boots with a Vibram sole work well. If you have weak ankles or are recovering from an ankle injury, get boots that come above the ankle— you'll find that this will give you more support in uneven or slippery terrain. Remember to waterproof your boots before the trip. Even boots billed as 'waterproof' need to be treated with a waterproofing product.

Clothing: The clothing listed on the packing list has been chosen for your specific trip conditions and for its versatility for layering. NO COTTON for your active wear! All active wear should be made from synthetic/synthetic blends, down/down blends or wool/wool blends. Layering is the most practical and efficient method of insulating the body. Several layers of varied weight materials provide better insulation than one thick Layer of clothing. Also, adding or subtracting layers allows you to adjust to the temperature at your particular level of activity.

Rain Gear: You will need a parka or jacket made of a coated nylon or a waterproof/breathable fabric like Gore-tex, HellyTech, Membrane, H2No, or Ultrex. **Be sure it keeps water out.** Before making this important purchase, be sure that it fits you properly. It should be large enough to fit over all your layers. In particular, the hood needs to be effective. It should shield your face from the rain and turn with your head. Movement of your arms must not interfere with the hood. Put on your daypack; can you still raise your arms? Your wind/rain pants should be comfortable, allow enough room for your layers, and permit free movement of your legs (for example, can you crouch comfortably?). Partial or full-length leg zippers are useful for easily putting your pants on over your boots. An inexpensive plastic poncho will both leak and tear easily and is not recommended.

Trekking Poles: Trekking poles are optional for this trip. Trekking poles contribute to your safety by improving your balance and stability, and to your health by saving stress on your hips and knees. If you are not familiar with trekking poles, read this blog post that addresses the most commonly asked questions:

<http://blog.adventuresingoodcompany.com/blog-women-travel/bid/154714/Trekking-poles-for-hiking-trips-the-4-most-common-questions .>

Personal First Aid Kit: Bring a small first aid kit with familiar medicine and first aid supplies you might need. Recommendations include the following: blister or foot remedies like moleskin, Compeed, blister bandages, or similar, a small role of duct tape (always useful!), remedies for respiratory ailments, stomach ailments, sore muscles or joints. The guides will have a first aid kit but having what you know works well for you is a good idea

Notes on packing/luggage:

- Please keep luggage between 30 - 40 pounds. You must be able to comfortably handle your own luggage, keeping in mind that some hotels may not have elevators and we all know that heavy luggage and no elevator is not a good mix!
- We recommend using a small to medium size duffel with wheels or a medium size soft sided suitcase with wheels.
