TRIP OVERVIEW

Who can resist these gentle giants in their winter home of Florida's spring-fed rivers? During the winter months, manatees come to the springs of Crystal River NWR to conserve the energy necessary to survive the cold Gulf waters. Crystal River is the perfect setting to see a large number of protected Florida manatees in one place and it's also where you're legally permitted to swim with them in their natural habitat and practice your "manatee manners" - look, don't touch! This is an ideal trip both for women who know they love paddling and for those who want to give kayaking a try: you'll learn basic kayak strokes on calm waters and by the end of the weekend you will be a competent and confident paddler. Even if you discover you don't like kayaking, which we doubt, the thrill of these wondrous creatures sticking their snouts out of the water beside your kayak is simply an amazing experience!

We've chosen two very different rivers to experience on this trip, the Homosassa and the Chassahowitzka. The Homosassa, wider and more developed, offers an excellent opportunity to see the manatees as they move in from the cooler ocean temperatures to the warmer waters of this spring fed river. The Chaz is a more primitive river with virtually no development along its shores. It has over 30 springs tucked away on her tiny tributaries and feeder streams. We'll explore just a few of these hidden gems in search of the manatees that hang there for the warmth of the springs. We'll also explore nooks and crannies to see the outstanding array of shorebirds wading, feeding and drying their wings: Great Ibis, Snowy Ibis, Great Blue Heron, Anhinga, Cormorant, and Wood storks all call this area home.

RATING

We have rated this trip a 2 because, since it is both an instructional trip and full of opportunities to watch wildlife, the pace is slower. It is appropriate for active women in basic good health with sufficient mobility to get in and out of the kayak when necessary. **Rating:** 1 [2](#) 3 4 5

OUR ITINERARY

Below is the itinerary we have planned for the trip. As is true on any adventure travel trip, plans for any specific day may be modified due to weather considerations, unforeseen circumstances, new opportunities, and group interests.

DAY 1

We meet at the Tampa, FL airport at 10:15 a.m. (if you plan to arrive that morning, please make sure your plane arrives by 9:45 a.m.). Our drive to the Chassahowitzka Hotel is about 1.5 hours. After settling into our rooms, we will share a welcome picnic and then head to the water for a couple of hours of instruction in our kayaks. Contrary to popular myth, kayaking does not require significant upper body strength; we will teach you how to paddle safely, effectively, and efficiently so that you are not totally exhausted at the end of the day. This practice time will also help you get to know your boat and how to get it to go where you want it to. Our paddle will be on the Homosassa River to the back side of the Homosassa Springs Wildlife State Park. We will hug the shoreline and watch for manatees. We will learn to spot them by the soft exhalation of air as they stick their snout above the water to breathe and by their form just below the surface of this clear water. If they are curious, they may come right up to us! Despite weighing multiple tons, manatees are very gentle and slow moving, so they pose no danger to us. After our time on the water We will return to our hotel and our group dining area for a hearty meal and a discussion of our plans for the rest of the trip.

DAY 2

Today we return to our outfitter and instead of heading up the Homosassa River, we will turn left and head up the Halls River. Paddling on this scenic river will enhance our skills as we spend more time on the water. After lunch back at the hotel, we head back to the Homosassa Springs State Park, this time by land. This little gem of a park is a great place to learn more about the manatees other birds and mammals that are native to Florida. This is a haven for rescued wildlife that cannot be safely returned to the wild. We will be able to see the recovering manatees and a variety of fish through the underwater viewing station. After spending a couple of hours in the park, we will return to our hotel for some relaxation. You might opt to hang out on the porch. Whatever you decide to do, we will end the day with a fabulous meal in our group dining area.

DAY 3

Today we'll explore another spring fed river, the Chassahowitzka or 'the Chaz'. The Chaz is very primitive and feels ancient. You'll find yourself wondering if a T-Rex is going to stick its head over the Spanish moss draped trees or if a brontosaurus will be munching on the marsh grasses we paddle through. The Chaz has over 30 springs, some of which are well hidden and hard to reach. We'll pick a few and paddle to them in our kayaks in search of the manatees that like to gather in the spring's warm water. The Chaz's waters are crystal clear, abundant with colorful fish as you look towards the bottom. The springs are turquoise blue and beautiful to behold, with or without manatees. As we explore the Chaz we'll also watch for shore birds feeding in the waters. If we're lucky, we may even see a Yellow Crowned Night Heron.

After our day of paddling we'll return to our resort to shower and change before going to Three Sisters Spring, where we can walk out on a boardwalk to three different springs where manatees hang out. Tonight, we will go out for our farewell dinner.

DAY 4

After a hearty breakfast we will pack up and leave our riverside resort for on last experience of the area. This time we will spend about an hour in the woods, hiking the Salt Marsh Trail. This trail and observation tower provide a sweeping view of a vast span of salt marsh. This is a great way to stretch our legs before our departure. After our hike we will head back to the Tampa airport. You will be back by 1:00 p.m. and can fly out after 2:30 p.m.
